

RECRUITMENT REGULATIONS FOR STUDENTS AND GRADUATES FOR TRAINEESHIPS WITHIN THE ERASMUS+ PROGRAMME AND WITHIN THE BILATERAL AGREEMENT IN THE ACADEMIC YEAR 2024/2025 (STUDENTS) AND 2025/2026 (GRADUATES)

1. WHO CAN BENEFIT FROM THE MOBILITY ABROAD FOR TRAINEESHIPS WITHIN THE ERASMUS+ PROGRAMME AND THE BILATERAL AGREEMENT?

1.1. Students and graduates of any level (Bachelor, Master, Doctoral) and form (full-time, part-time) of studies who have not used the credit mobility awarded by the European Commission for mobilities in a given study cycle (see point 2) can benefit from the mobility abroad for traineeships within the Erasmus+ Programme.

1.2 Students of the 3rd and the 4th year of Master studies of Graphics with a specialization in Printmaking can benefit from the mobility abroad for traineeships within the Bilateral Agreement. Two students of the Academy in Wrocław can go in one academic year. More information can be found on the website of the partner university: <http://art.utk.edu/printmaking/>. The period spent on this exchange does not count toward the credit mobility.

1.3 The participant must have a status of an active student (i.e. not on a dean's or sick leave) at the time of departure.

1.4 Graduates can carry out the mobility provided that they are recruited for the traineeship during the last year of their studies while having the status of a student or a doctoral student.

2. ONLY ERASMUS+ PROGRAMME: WHAT IS THE CREDIT MOBILITY?

2.1 For each level of studies, a student is entitled to a pool of 12 months of the credit mobility, which can be used for studies and/ or traineeships. In the case of long-cycle Master's studies, the pool is 24 months. Participating in the mobility under previous mobility programmes, i.e. LLP/ Erasmus/ PO WER and mobilities with a zero grant also count.

2.2 A student may participate in one or more mobilities within one study degree, provided that the credit mobility has not yet been used for other mobilities, and the period of the planned mobility does not exceed the credit mobility that the student has left to use. For example, if a Bachelor student has already used 10 months for mobilities under the Erasmus+ Programme, he/she can use 2 months for the traineeships. However, if he/she has already used 11 months, he/she cannot complete the traineeships because the minimum duration of the traineeships is 2 months.

2.2 During one academic year, a student may go once for studies and once for traineeships. Priority is given to students who apply for the first time.

3. WHEN AND FOR HOW LONG CAN YOU GO?

3.1 The duration of the student traineeships within the Erasmus+ Programme is a **minimum of 2 months and a maximum of 3 months**. The traineeships can be implemented only during the holidays 2025 and they should be completed by **30.09.2025 at the latest**.

3.2 The duration of the graduate traineeships within the Erasmus+ Programme is a **minimum of 2 months and a maximum of 12 months**. The traineeships must be completed within 12 months after graduation (i.e. from the date of the diploma defense – Bachelor and Master students; from the date of completion of education at the Doctoral School - Doctoral students) **between 01.07.2025 and 31.07.2026**.

3.3 The duration of the student traineeships within the Bilateral Agreement (workshops in Knoxville) is **exactly 1 month (September 2025)**.

3.4 For traineeships, an enterprise/organization holiday is not considered as an interruption period. The grant is maintained during that holiday. The holiday period counts towards the minimum duration of a traineeship period.

4. WHERE CAN YOU GO?

Erasmus+ Programme

4.1. A student may apply for traineeships to one of the institutions:

- a) available in the database published on the Academy's website in the tab "Student" → "Erasmus+ Student Guide";
- b) announcing the applications on the website www.erasmusintern.org;
- c) searched by the student on his/her own, provided that the offered programme coincides with the programme of implemented/completed studies.

Students establish contact with the institution in which they would like to implement the traineeships on their own.

4.2. The traineeships can be implemented only in one of the European Union member states, EFTA/ EEA countries: Iceland, Liechtenstein, Norway, and EU candidate countries: Turkey, North Macedonia and Serbia.

4.3 The traineeships can be carried out only in enterprises based in a country other than the country of the home university and in a country other than the country of residence of the participant (regardless of citizenship). Traineeships in the trainee's home country will have a lower priority.

4.4 The following types of organizations do not qualify as host organizations for traineeships: EU institutions and other EU bodies, including specialized agencies (an exhaustive list of these institutions is available at: http://europa.eu/european-union/about-eu/Institutions-bodies_en); EU programme management organizations, e.g. Erasmus+ National Agencies (to avoid possible conflict of interests or double funding).

Workshops in Knoxville

4.5 The mobility within the Bilateral Agreement takes place only at the University of Tennessee in Knoxville, the United States.

5. WHAT ARE THE SCHOLARSHIP RATES?

Erasmus+ Programme

5.1. Individual support: Individual support is a partial contribution to the costs associated with a stay abroad. The amount of scholarship depends on the country of destination and the number of days spent abroad and is calculated with an accuracy of one day spent in the institution abroad according to the calculator prepared by the European Commission. A full month is counted as 30 calendar days and an incomplete last month of stay is the actual number of days.

5.2 The scholarship is paid in the form of a lump sum in the euro currency to the student's foreign exchange account. The scholarship is tax-free. The monthly amount of the scholarship was established by the Polish National Agency for the Erasmus+ Programme depending on the country:
